My Travel Kaki App (Malaysia)

PROJECT 1

Technologies: Flutter, GetX, HTTP, MVC Architecture

API Integration

API integration using HTTP

Payment Gateway

Payment gateway integration (Chip)

State Management

State management using GetX

Architecture

Structured project using MVC pattern

Deployment

Google Play Store deployment

Made with GAMMA

Hooha App

PROJECT 2

Technologies: Flutter, CI/CD, Stripe, iOS IAP

Features Implemented

CI/CD Pipeline

CI/CD pipeline setup for automated builds & deployment

Identity Verification

Identity verification system integration

Stripe Payment

Stripe payment gateway integration

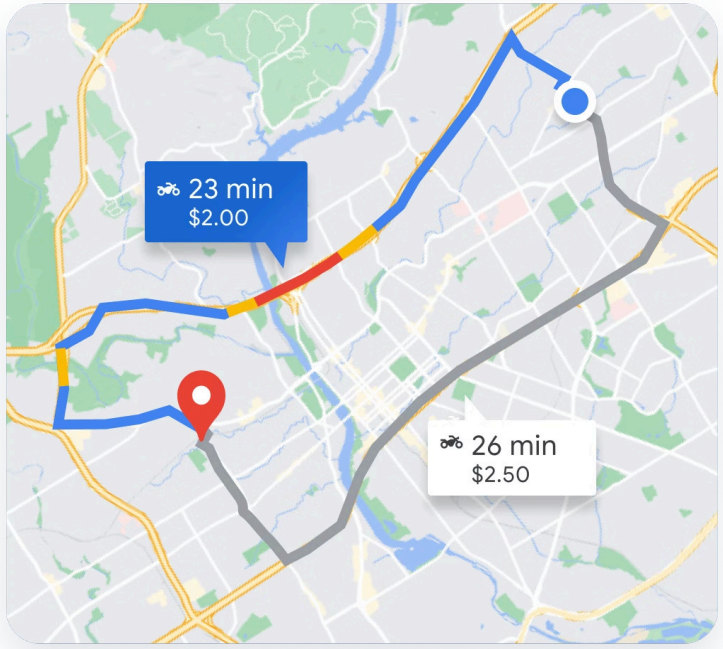
iOS IAP

In-App Purchases for iOS

Optimized UI

High-performance and optimized UI

Made with GAMMA



Sovangles App

PROJECT 3

Technologies: Flutter, Dio, Google Maps API

Features Implemented

Push Notifications

Push notification integration

API Integration

API integration using Dio

Real-Time Tracking

Real-time tracking system

Google Maps Features

- Routing
- Markers
- Polylines
- Circles

Made with GAMMA

Seer App (Customer, Company & Driver Apps)

PROJECT 4

Technologies: Flutter, WebSocket

Features Implemented

Multi-App Architecture

Multi-app architecture (Customer, Company, Driver)

Real-Time Communication

Real-time communication using WebSocket

Live Chat Functionality

Live chat functionality

Advanced Bottom Sheet Management

Advanced bottom sheet management

Complex UI & Reusable Components

Complex UI handling and reusable components

Smooth Animations

Smooth animations and performance optimization

Made with GAMMA

Treeblazz App

PROJECT 5

Technologies: Firebase (Auth, Firestore, Storage)

Features Implemented

Firebase Authentication

Firebase Authentication

Cloud Firestore

Cloud Firestore database integration

Firebase Storage

Firebase Storage for media handling

Made with GAMMA
